### 10x30

How to Visualize:

Extra-long one car garage.

What Will Fit:

Furnishings of four or five-bedroom house with appliances, patio furniture and many boxes, garage extras and miscellaneous

# Moving and Packing Tips:

## How many Boxes?

Number of Bedrooms	5	4	3	2	1	2 Rooms Only
Small Box	26	23	18	12	8	5
Medium Box	48	38	25	18	15	10
Large Box	18	15	8	6	4	2
Dish Pack Box	4	4	4	3	3	2
Wardrobe Box	12	10	8	6	3	3

### Furniture:

- Lay down plastic sheeting or a pallet between furniture and storage unit floor
- Cover all furniture
- Disassemble if possible
- Wrap table legs with packing paper as scratch protection
- Lay assembled tables top down on floor with legs pointing up
- Stack chairs seat-to-seat with cloth or paper separating them

### Metal:

- Wipe a few drops of oil on bicycles and tools as rust protector
- To avoid oil staining, do not store next to exposed items

### Breakables:

- Separately wrap before storing in dish pack
- Pack paper into bottom, top and empty spaces in carton
- Tip plates, saucers and bowls on their sides and use dish pack divider kit for increased security
- Heavy items should not be stored on top of breakables
- Labeling is doubly important.

### Books and Valuable Papers:

- File boxes are the best idea for your important documents.
- Pack books flat and fill any empty space to stop movement
- Avoid over-filling cartons; books are heavy
- Keep moisture free with plastic sheeting on top of pallets

### Large Appliances and Equipment:

- Moisture and mildew will damage your valuables if your refrigerator or freezer is not clean and dry
- Leave door slightly ajar
- Use valuable storage space inside appliances for small items
- Items stored on top or inside must be secured when moving

### Clothing:

- Wardrobe boxes allow you to store your clothing on hangers which save the shape of the garments
- Cedar eggs or rose pods keep fabrics smelling fresh
